

Dialogue: Opportunities for Forest Carbon Market

Mr. Pham Hong Luong
Deputy Director, Department of Forestry

Mr Luong was responsible for formulating, organizing the implementation of the policy on payment for forest environmental services in Vietnam, developing policies and legal documents relating to forestry & environment, being a member of the Committee of Drafting Forestry Law. As a result, the system of Forest Protection and Development Funds from the central to the provinces has mobilized an average of 50-70 million USD annually to pay forest owners, households, individuals and communities to protect and develop forests

Mr. Vu Tan Phuong
Director of Sustainable Forest Management and Certification Office

Having 30 years working experience in forestry sector in Vietnam, Dr. Phuong has implemented numerous researches and consulting activities on forest carbon, forest pricing for policy development, greenhouse gas inventory, emission reduction projects and participated in the development of Nationally Determined Contributions (NDCs) in the field of land use, land use change and forestry (LULUCF).

MA. Tran Hong Nhung
Principal Specialist at Legal Department, Ministry of Finance

MA.Nhung has 14 years of experience in the legal aspect of financial policy. She participates in researching, reviewing and formulating common and financial policies related to green growth and sustainable development, mitigation activities and carbon market development in Vietnam.

Mr. Pham Nam Hưng
Officer at Department of Climate Change (MONRE)

Mr. Hung has many working experiences in the sector of climate change. He was a member of technical working group in COP26 Conference. He also involved in developing policies and legal documents: NDC, Law on Environmental Protection, Decree 06/2022/ND-CP on greenhouse gas emission mitigation and ozone layer protection, etc.
